¹Thanks to ...

Background

Results as
RDF Data
Cube

PhuseSubTeamAnalysisResults@example.org

Example:
Demographics
table

- Motivation
 - Store analysis results in RDF
 - Leverage CDISC in RDF
- Choices
 - use R with RRDF package (interface to Jena)
 - use RDF Data Cube
 - create codelists using SDTM/ADAM

Demographics table

Results as
RDF Data
Cube

PhuseSubTeamAnalysisResults@example.org

Example:
Demographics
table

left - lans slide from XX

No text

right - same data shown
using Kable
